Experience

“AWEB” - html/css developer (1.4 years)

Projects: <https://ips-med.ru>, <https://med-plaza.com>

Worked with CMS: Wordpress, Joomla etc. Created pages (markup, styles, scripts) as well as editing old pages (new design, changed SEO data) and synchronizing work with the Back-End.

“Brainlab Studio” - Front-End (9 month)

Projects: <https://ivanogloblin.com>, <https://cikera-mead.com/>, <https://alt.ua/>, <https://kashalot.gift/ua/>

Worked with CMS: Wordpress, OpenCart. Create templates for wordpress, create pages with animation (used GSAP, Anime.js) and other events, editing old pages (scripts, styles, seo).

“Snov.io” - Front-End WordPress developer (november 2021 - until now)

Projects: <https://snov.io/>, <https://snov.io/blog/>, <https://snov.io/knowledgebase/>, <https://snov.io/glossary/>, <https://snov.io/webinars/>, <https://growth.snov.io/>, similar projects for chinese domain <https://snovio.cn/>, email-templates.

I work with Wordpress, Node js + Express, create templates for themes, create pages, edit pages. Actively involved in development proposals, success was the implementation of a new approach to the deployment of the main site, changing the stack, the transition to the SSR, improving speed, building the project from 1-1:30 minutes down to 5-12 minutes given that it no longer occurs locally and occurs on the server GitLab.

Skills

Html/Pug/Css/SCSS/SASS

Javascript/Node.js/Express.js/jQuery/GSAP

Wordpress

PHP

SQL - MySQL

NoSQL - Redis

Webpack

Git

Docker

Figma/Photoshop
